node LABS

Intro to Node.js
November 2-3

Who should attend?

Those with little to no experience with Node.js but have a programming background. Obviously, you should be willing to learn.

What is Node.js?

Node.js is a platform built on Chrome's JavaScript runtime for building fast, scalable network applications. Node.js uses event-driven, non-blocking I/O that makes it efficient and perfect for data-intensive real-time distributed applications.

Friday, Nov. 2:   7:00 PM - 9:00 PM

Optional: setup your laptop for Saturday and get one-on-one time with your instructors in a free-format open house.

Saturday, Nov. 3:   9:30 AM - 5:30 PM

Learn Node.js in a lecture/recitation style, just like college. We'll have instructors on-site to help with your questions. Lunch will be provided.

Location: **Cerner Riverport Campus**

6711 NE Birmingham Rd, KC, MO 64117
